Bonuses, promotions and wagering rules

The conditions below relate to the observed English-language international version and to the structured data of the official website saved on 15.11.2026. End dates and statuses relate to the respective records. The operator's advertising promises, the visibility of an offer in a particular account and the general terms vary by jurisdiction. The personal results of the Polish profile are given in the approved input data; this section preserves the international conditions.

Bonuses, promotions and wagering rules / General rules Fireball Casino

The general promotion rules are part of the general Terms and Conditions. Where the general rules and the special promotion rules conflict, the special condition of the respective promotion applies. Where versions differ, the English text prevails. Base time references use CET unless the promotion expressly specifies UTC or another note. Promotions are time-limited; the operator may change, terminate or withdraw them in unforeseen circumstances, correct errors and typos, clarify the conditions, refuse to grant a bonus or exclude a player in the event of problem gambling, abuse or technical exploitation. Continued use after a change is treated as acceptance. Availability and visibility depend on the conditions. Where participation is restricted, the operator may hide the promotion or prohibit claiming it.

The rules provide for one bonus per person, household, IP, email, phone, postal address, device and payment account. Shared Terms for bonuses are also called a family and a public device. Employees, officials, directors and their family members or relatives are excluded. With an active or initiated self-exclusion, invitations, participation, bonuses and prizes are unavailable for the relevant period. The operator may check transactions and gameplay and void the right to participate, prizes, bonuses and winnings in the event of collusion, illegal activity, fraud or other abuse. Examples include changing IP via VPN, proxies and similar means in order to repeatedly or unfairly obtain a promotion, use of known or unknown errors, multiple accounts, joint actions of players, opposite bets for a result regardless of the outcome, and overstating the bet while a bonus is active. In the event of blocking and confiscation, the operator states that it is not obliged to return funds beyond the initial deposits. For identified irregular or exploitative schemes, withdrawal revocation, account closure and annulment of winnings and bonus funds are also provided for. Under the general Terms & Conditions, the operator may cancel bonuses and promo winnings for violation of the terms or abuse, and in such a dispute the player accepts the casino's decision as final. A separate clause of this section provides for suspension of the account and confiscation of all accumulated funds in the event of unfair bonus activity, including deception, manipulation and arbitrage.

Reload Bonus	Select an offer in the bonuses on the deposit screen before topping up. General minimum €10. The deposit and the credited bonus are converted into Bonus Balance. Real funds are spent first.	30× from real and bonus money, 7 days.	Terms of the specific promotion.

Type	Obtaining and procedure for use	Wagering under the general rules	Transfer to real balance
NON-STICKY Reload Bonus	General minimum deposit €10. Real money is spent first, and once it is exhausted the bonus funds are activated. Withdrawing winnings from the real balance cancels the bonus automatically.	50× bonus money, 7 days.	Terms of the specific promotion.
No Deposit Free Spins	Automatic crediting, for example for a tournament, or activation with an active code.	30× of winnings, 20× for a tournament prize, 7 days.	Up to €80 or the equivalent after wagering.

- The types declared by the operator are Deposit Bonus, No Deposit Bonus and Free Spins. One bonus is active at a time. The general rules require a minimum of one deposit with real money for bonuses, except Welcome Bonus. Example of currency conversion for the amount 10 EUR: 10 USD, 10 CAD, 40 PLN, 100 NOK, 1 000 INR, 4 000 HUF, 200 ZAR, 50 BRL.
- Real and bonus funds are accounted for separately. The general Terms tie the bonus winnings and the deposit relating to them to Bonus Balance until full turnover. When both balances are present, bonus funds are included after the real ones are exhausted. Under the promotion rules, winnings from Real Money can be requested at any time with the loss of the unused Bonus Money. The general Terms separately provide for cancellation of an unfinished bonus, winnings and an already submitted withdrawal request if a request is made before full wagering. Before transferring Bonus Balance into Real Money, wagering must be completed. If Bonus Balance falls below €0,20 or the equivalent, the bonus is closed automatically and the remainder goes to Real Balance. The real deposit and the cash reward require turnover of 1× before withdrawal under the general rules of games with bonuses.
- Voluntary cancellation via My Bonuses / Cancel annuls the unwagered deposit or no-deposit bonus, funds from spins and the accumulated related winnings. If the wagering period has expired, the bonus money and winnings are annulled. FAQ states that an expired bonus cannot be restored, and restoration of a cancelled one depends on the terms of the individual promotion.
- General promotion rules: Free Spins cannot be split; after activation they are used in one of the available slots, term 7 days. Winnings are automatically credited as Bonus Money and under General Promotion Terms can be used only in the slot in which the Free Spins were activated. The general Terms separately speak of individual issuance of loyalty spins at the casino's discretion, binding to a specific game or group, publication of the terms in Promotions or sending by email, the number and term at the operator's decision. Uniqueness per person, household, family, address, email, payment method, IP or public device.
- **Difference of scopes and wording.** The general Terms §20.5 speak of wagering winnings from Free Spins **15×**, while General Promotion Terms §7 speaks of **20×** for deposit and **30×** for no-deposit (20× for prize tournament). The general Terms §20.6 separately exclude turnover in Table Games, Video Poker and Live Poker for Free Spins. Specific promotions set their own rates and terms, so these figures are retained with their scope of application. The rules of Live Casino require own funds, except for special Live promotions with separate terms. Bonus money is usually not displayed in the

game balance Live Casino, and a violation gives the operator the right to suspend the account and withhold payment of related winnings.

- While wagering is active, the overall maximum bet is €2 per spin and/or €0,20 per line, including bonus purchase, Gamble and mini-games. Limits in other currencies: 2 USD, 2 CAD, 8 PLN, 20 NOK, 200 INR, 800 HUF, 40 ZAR and 10 BRL (BRL is stated in General Promotion Terms). Exceeding it may annul both the bonus and all related winnings, even those obtained on bets within the limit.

The English text prevails. Playson may change, suspend or cancel the promotion and the rules. Changes do not affect existing participants, except for measures against fraud or improper conduct. The operator may refuse payout due to an obvious error, failure, incorrect calculation, deception or collusion and has the right to change or cancel the campaign. The platform's general Terms apply. The periods of individual races and the tables of specific prizes are approved in the rules.

Bonuses, promotions and wagering rules / Tournaments and network promos / Spinoleague — Spinomenal 2026

- Cross-platform tournament of participating casinos. Starting participation and the OK button mean agreement with the rules, the rules within the tournament tool and the casino's terms. Participating casinos are responsible for communicating these rules and all related tournament information to their players. In case of discrepancy, the tournament tool prevails; for different languages, the English version prevails.
- Real money play only. No additional deposits, fees or entry fees are required. Availability depends on jurisdiction, casino decisions and law. The Spinomenal slot portfolio is covered, including new releases, except 1 Reel and games on the exclusion list. If required by law, the player may opt out via the Decline button. The round identifier is unique per currency; changing currency may reset the ranking.
- Multiple rounds, each with its own maximum fund and number of prize places in the tool. Overall maximum €12 000 000. After a round, the leaderboard resets. The minimum bet and any cap on counted bets are stated in the individual round's tool. Bets above the stated cap are excluded from the ranking. The ranking appears after a qualifying score; in case of a tie, the player who reached the points first ranks higher.
- Points = win / bet. Example €10 win on a €1 bet = 10 points. Only completed rounds and bets count. Spins issued by the casino do not count. Buy Feature / Buy Bonus counts as one bet: the purchase price and the total win of the purchased feature. Additional activities by Spinomenal or the casino may award points under their own rules.

- Prizes may be paid as a cash equivalent without wagering. Players using cryptocurrency see prizes in EUR and are paid according to the casino's payment rules. The casino is responsible for payment within 96 hours after accepting the results of Spinomenal, excluding applicable bank holidays.
- Prize Multiplier Wheel is available to the winner within the displayed window of 24 hours after the round, subject to local law and casino inclusion. One attempt; the random final outcome is an increased, unchanged or lost prize. If the wheel is not used or unavailable, the original prize is retained.
- A technical error and connection failure may void the game and payouts. On reasonable suspicion, Spinomenal may exclude a player, disqualify a result or correct points. It may change, suspend or terminate the tournament within the law. Participation after a change means acceptance. In case of likely harm, it may stop for an indefinite period without payouts. The casino is responsible for payment, claims and local compliance. Spinomenal does not distinguish between bonus and real money bets; restrictions are applied by the casino.
- **Schedule and game conditions.** The page refers to approved appendices with the round schedule and the list of excluded games. The overall range in the configuration above and the group CMS of 100 games apply together with the round tables and the exclusion list.

Bonuses, promotions and playthrough rules / Individual components of FS, cashback and repeat promotions

CB-01: €1500 completed real bets −€1100 payouts =€400 net loss; 5% =€20 cashback. After cap €100 and deducting €0, €20 remain; ×1 means €20 of turnover. Bonus movements €200/€180 and incomplete €40 are not included in the base. When deducting €5 from the credit, the total is €15; when deducting €5 from the base, the total is €19,75 — these mechanisms are not interchangeable.

LIVE-EUR-CB-01: the first 50 qualifying live rounds at €5, total bets €250, full payouts €180, net loss €70, 15% =€10,50. The result is between the original €5 and €250; there is no separate rollover. The lower threshold does not raise €3 of the calculated cashback to €5: if the threshold is not reached, the payout is not considered qualified.

RELOAD-01: the separate promotion Hi-Lo 75% to €80 gives €60, cap €200; under the rules of the regular Reload ×30 from D+B turnover (€80+€60)×30 =€4200, term 7 days. NONSTICKY-01: €80 and €60 are used separately; when applying ×50 from the bonus, €3000 is required, and withdrawing real funds cancels the unused bonus. These two mechanics are not combined into one promotion.

TABLE-BOOST-01: 100% to €80 =€80 under cap €200; applicable only to the selected table games. For a confirmed profile, a term of 7 days, a wagering requirement of ×30 of the bonus, a contribution of 10%

and max bet €2 are set; €2400 of contribution or €24000 of bets are required. JOKER-01: 100 FS at €0,10, winnings €8,40, ×20 =€168 of turnover, 7 days; 150 FS remains the upper advertising limit. The terms of these additional promotions are confirmed and recorded in the promo regulations.
