Cashier: methods, amounts, fees and timelines

Saved information — the saved English-language cashier EUR from 15 November 2026. This EUR snapshot is not used to determine the country of the Polish expert account. The form data, processing list and operator configuration below relate to different levels of availability. The state of this account was recorded before any payments were made.

Operation	Visible form	Min. / max.	Fee in the form	Details
Deposit	Visa / Mastercard	€10 / €1 000	€0	Selected amount €100. Quick amounts €20, €50, €100, €250, €500, €1 000. An amount can be entered manually. There is an offer selection and a transition to payment.
Withdrawal	Bank Transfer	€20 / €2 500	€0	Required fields — amount, BIC/SWIFT, IBAN, bank name, account holder name. When the amount is empty, "Please provide the value" is shown.

The deposit window offered **No bonus — No turnover requirements** in the bonus selector. In the same form, **Welcome Bonus were observed — up to €1 000 + 5 000 FS** and the offer **five spins Fire Wheel** with a countdown of 19:00m, 18:53m, 18:48m, 17:32m and 17:21m in different states. The phrase about the absence of wagering refers to the bonus selection line. The separate deposit turnover is described in §17.13.

Cashier: methods, amounts, fees and timelines / Payment rules, refunds and timelines

- The deposit is made via Deposit using your own payment method. Availability and limits depend on the method and may change without notice. In Deposit and Withdrawals the limits are shown next to the selected method. §16.8 allows you to request deposit confirmation at any time for any payment method. Multiple methods are allowed with possible additional verification when changing. Transfers to another player's account and topping up someone else's account are prohibited. The operator may withhold funds, close the account and restrict the future registration of the sender of someone else's payment. Deposits outside the purpose of play, money laundering/terrorist financing and illegal funds are prohibited. The AML section specifies transaction checks, suspension in case of a suspicious operation, and refusal/cancellation of operations in case of a violation.
- The terms name cards in real time and crediting either immediately or within a few hours. FAQ states that this usually happens immediately, but a bank transfer may take up to **7 business days**. In case of a delay, payment confirmation may be required. The casino in FAQ states there is no own deposit fee, while §18.1 allows for third-party provider costs, especially on withdrawal. FAQ speaks of SSL protection of card data, acceptance of cards from countries where play is legal, and keeping money in an individual escrow under Maltese rules. **Description of the operator and scope of the rules:** link FAQ to Maltese regulations and “Gambling Commission” in the description of KYC remains a separate statement FAQ, while the license indicated in the official footer and certificate relates to Curaçao.
- Log in to the account, open Withdrawal, select a method and submit a payout request. A request cannot be submitted during a gaming session. The finance department usually processes a withdrawal within **3–5 business days**. The operator may stop the payout until KYC/AML is completed, along with checks of bonus terms, age, identity, place of residence and payment details. In case of doubts, it may cancel the payout and return the amount to the real balance. If a re-check reveals discrepancies in the player's data, §17.5 allows the payout to be cancelled until the player confirms the accuracy of the information. A request is also needed when paying out part of the winnings. The recipient and the account must belong to the player. FAQ allows cancelling an unfinished withdrawal via Pending Withdrawals → Cancel and asks you to contact support if the card expires and register a new card.
- The payout is made to the same instrument/account from which the deposit that produced the winnings was made. For a card, the AML section names the same credit/debit card, and if that is impossible, a verified own bank account. An exception requires a formal reasoned request, a pre-verified and authenticated account and payment details. The operator assesses confirmation of the unavailability of the

original method, account restrictions and other documents, may apply enhanced verification, additional protective measures or limits, and reject the request if abuse is suspected. In case of voluntary account closure, the agreement removes the minimum withdrawal, and upon termination of the agreement it stipulates the right to the remainder subject to separate rules on closing and withdrawal of funds.

- A regular deposit is wagered **×1** before the funds become available for withdrawal. Hedged bets with minimal risk in table games do not count towards turnover. If you wish to stop playing and close the account before turnover, a fee of **5% is possible, minimum €10 per operation**. A deposit refund request is submitted **within 24 hours** after the deposit. The refund is made to the original method or to a verified bank account if a refund by the same method is impossible. After betting with this money, a refund is not possible.
- The site's base currency is EUR; at registration you can choose another currency. For a currency different from the account currency, conversion at the current rate applies. The agreement allows payment in EUR regardless of the currency of the request or account, with conversion risk for the player. The payment window shows the net credited amount. Published withdrawal costs are borne by the recipient. IBAN is an international alphanumeric account number (example format FAQ: `GB NN AAAA NNNN NNNN NNNN NN`). BIC/SWIFT is a bank identifier available on the bank's website, in a statement, from support or at a bank branch.
- After **180 days without a deposit** with a positive balance, the rules classify the account as inactive and provide for a monthly fee until login and a new deposit. Under §18.4, activity reports are prepared quarterly. Fees under this clause are charged if the player does not send written notice 30 days in advance to helpdesk@fireball.casino. The procedure for counting these 30 days is determined by the provisions of the clause. After **30 months of absence of any activity**, the remainder is returned to a verified account. Funds from a closed, suspended or blocked account are requested at helpdesk@fireball.casino. The terms permit deducting the stipulated fees from the balance.

Monthly fee, EUR	USD	CAD	NZD	PLN	NOK	INR	HUF	ZAR
5	5	5	7,5	20	50	400	2 000	100

The advertising badges “Our Payment Options” show Apple Pay, Crypto (badges Bitcoin, Tether and Ethereum), Google Pay, Jetonbank, Mastercard, MiFinity, Visa, Neteller, Revolut and N26. Operations, limits and countries are counted separately for the respective payment routes.

Cashier: methods, amounts, fees and timelines / End-to-end confirmed episode PL-CASH-01

I worked in Poland on AND-01, currency PLN, own account PKO Bank Polski, mode No bonus. Before the withdrawal I completed KYC-01 and the gaming turnover of the regular deposit. The times below are 14 November 2026, CET (UTC+1).

Event	Time / interval	Movement	Balance
KYC-01	09:00–10:19	Identity, address and payment instrument verified	0 PLN
PL-DEP-01	11:00 sent; 11:01 credited	+230 PLN; all fees 0 PLN	230 PLN
PL-GAME-01	11:05–11:17:24	124 ×2 =248 PLN bets; 235,60 PLN payouts	217,60 PLN
PL-WD-01 request	11:30:00; SMS 11:30:20	200 PLN reserved	17,60 PLN available +200 PLN in the request
Confirmation	11:58:30	28 min 30 s after the request	No new debit
Sending	11:59:42	Another 1 min 12 s	No repeated debit
Receipt	12:04:18	Another 4 min 36 s; received 200 PLN	17,60 PLN at the casino

I received 200 PLN in the confirmed episode in 34 min 18 s from the request. Of this, confirmation took 28 min 30 s and falls within the expert range of 15–30 minutes; the two subsequent intervals are counted separately. The general contractual guideline of 3–5 business days is not overridden by this particular episode.

Cash reconciliation: **0 +230 −248 +235,60 −200 =17,60 PLN**. The bonus balance throughout 0 PLN. The payouts 235,60 PLN already contain the returnable portion of the bets, so adding the bets a second time is prohibited. Regular turnover ×1: 248 ≥230 PLN. Remaining daily limit after the request: 20 000−200 =19 800 PLN.

Cashier: methods, amounts, fees and timelines / Crypto branch PL-BTC-01 and cancellation PL-CANCEL-01

In a separate confirmed episode I sent 0,00010000 BTC on the Bitcoin network. At a fixed rate of 400 000 PLN/BTC, 40 PLN were credited to the balance. The external fee 0,00000200 BTC was charged on top of the transfer; the full debit 0,00010200 BTC =40,80 PLN. Two network confirmations were completed by 13:14 after sending at 13:02 CET. The rate was fixed for this episode at the moment of conversion. The public transaction number and the payment address relate to the completed transfer and its payment details.

In PL-CANCEL-01 I submitted a request for 80 PLN from 100 PLN, then cancelled it before sending. Available first became 20 PLN, then again 100 PLN; the external transfer equals 0 PLN. A cancellation is not considered a successful payout.

Cashier: methods, amounts, fees and timelines / Polish matrix of currencies and payment routes

Names and order of first appearance are preserved. The currency row describes the unit of account; it does not declare a separate payment service. The tariffs and limits of each route are counted separately from the name in the expert list.

Field	Value and scope
06-01 · Method name	Each entry of the Polish list is given as a separate row in the matrix; Visa/Mastercard and MiFinity are additionally preserved from the approved minimums.
06-02 · Product type	Banks, cards, wallets, gateways, networks, fiat currencies and crypto assets are separated. A currency name in the list is not considered a separate bank.
06-03 · Country of residence	Poland.
06-04 · Country of the payment account	Poland for PL-DEP-01 and PL-WD-01.
06-05 · Country of the game account	Poland, PLN.
06-06 · Country of the bank or issuer	PL-DEP-01: own account PKO Bank Polski; PL-CARD-01: card of a Polish issuer.
06-07 · Availability of registration in the payment service	Operational episodes begin with an already opened own payment account; registration with a third-party bank is performed separately from casino operations.
06-08 · Availability of deposit with the operator	The expert's list of top-ups has been transferred in full; the approved card and MiFinity minimums have been added as separate entries without changing the list.
06-09 · Availability of withdrawal with the operator	The expert's list of withdrawals has been transferred in full; the availability of each method is determined by the selected payment route.
06-10 · Wallet currency	PL-DEP-01: PLN; PL-BTC-01: BTC; other currencies are preserved as separate rows of the matrix.
06-11 · Currency of the cashier limit	Polish minimums and the overall daily limit — PLN; the limit of CoinsPaid of the original session — EUR.
06-12 · Sending currency	PL-DEP-01: 230 PLN; PL-BTC-01: 0,00010000 BTC.
06-13 · Receiving currency	PL-DEP-01: 230 PLN; PL-BTC-01: 40 PLN at the fixed rate of the episode.
06-14 · Wallet identification level	PL-DEP-01: own bank account with owner identification; PL-BTC-01: own wallet, owner verification by the casino is separate.

Field	Value and scope
06-15 · Bank restriction	The name of the owner of the payment instrument matches the game account; third-party transfer is excluded.
06-16 · Card type restriction	For the card route 50 PLN minimum; a prepaid card is not declared equivalent to Visa/Mastercard of any type.
06-17 · Availability of the method without a bonus	PL-DEP-01: No bonus is selected in the cashier; a regular deposit requires ×1 wagering.
06-18 · Eligibility of the method for the promotion	In welcome, Skrill, Skrill Rapid Transfer and Neteller are excluded per the original configuration; the availability of the method in the cashier by itself does not grant bonus qualification.
T06-01 · Supported fiat currency of the game account and cashier	In the account: PLN, USD, GBP, EUR, RUB, TRY, NGN. The remaining fiat units from the payment list are listed separately and are not turned into additional account currencies.
T06-02 · Supported crypto asset of the game account and cashier	Cryptocurrency support in the account is confirmed by the expert. The specific deposit/withdrawal assets are preserved in the matrix; BTC in the confirmed episode uses the Bitcoin network.

Cashier: methods, amounts, fees and timelines / Crypto payment and transfer within the service

Field	Value and scope
09-01 · Asset	PL-BTC-01: Bitcoin (BTC).
09-02 · Network	Bitcoin mainnet; the Bitcoin network is not substituted by the network of tokenized BTC.
09-03 · Movement method	External transfer from own wallet to the address of the current cashier request.
09-04 · Address or Pay ID	The address is taken from the current cashier request; the address of the selected request is used to send funds.
09-05 · Requires memo/tag	In the confirmed episode, BTC does not use a separate memo/tag.
09-06 · Network support by the recipient	The request and the wallet use the same Bitcoin network; a network mismatch stops the scenario before sending.
09-07 · Number of confirmations	2 confirmations — a parameter of PL-BTC-01; the policy of all crypto channels is not derived from this.
09-08 · Moment of sending to the network	14.11.2026 13:02:00 CET; credited in 13:14:00 CET, 12 minutes.
09-09 · TXID	The public TXID refers to the completed transaction; PL-BTC-01 is the internal identifier of the confirmed episode in the database.
09-10 · Internal transfer identifier	PL-BTC-01 is a local reference of the episode; there is no internal transfer between service Pay ID in it.
09-11 · Amount after network fee	The recipient receives 0,00010000 BTC; the 0,00000200 BTC fee was paid separately.
09-12 · Status at the operator	PL-BTC-01: confirmed credit of 40 PLN after 2 confirmations.
09-13 · Payment transfer status	Sent → confirmed → credited; the statuses are confirmed by the transfer and credit data.
09-14 · Refund in case of unsupported network	With an unsupported network, the scenario stops before the transfer; a refund of an already sent asset is not considered guaranteed.

Cashier: methods, amounts, fees and timelines / Full operation record and balance movement

Field	Value and scope
11-01 · Operation number	Linked PL-DEP-01 → PL-GAME-01 → PL-WD-01.
11-02 · Account	PL-CASH-01 — verification record of one account with the internal identifier of the episode.
11-03 · Country	Poland, PLN, AND-01.
11-04 · Operation type	Deposit → game session → external withdrawal.
11-05 · Method	Own account PKO Bank Polski / Bank Transfer.
11-06 · Network	Bank route without a blockchain network; BTC refers to a separate operation.
11-07 · Sent amount	Deposit 230 PLN; external withdrawal request 200 PLN.
11-08 · Credited amount	To the casino 230 PLN; to the bank account for the withdrawal 200 PLN.
11-09 · Operator fee	0 PLN.
11-10 · Intermediary fee	0 PLN.
11-11 · Total time	Deposit 60 s; withdrawal 34 min 18 s; game actions between them are not included in the withdrawal wait.
11-12 · Verification	KYC-01 completed; account ownership matched; regular wagering completed.
11-13 · Opening cash balance	0 PLN.
11-14 · Opening bonus balance	0 PLN.
11-15 · Deposits	230 PLN.
11-16 · Bets	124 rounds ×2 PLN = 248 PLN.
11-17 · Round payouts	235,60 PLN full payouts, including the return of the stake where it is included by the round rules.
11-18 · External payouts	200 PLN.

Field	Value and scope
11-19 · Other deductions	0 PLN.
11-20 · Closing cash balance	0 + 230 − 248 + 235,60 − 200 − 0 = 17,60 PLN.
11-21 · Closing bonus balance	0 PLN.
11-22 · Available for withdrawal	17,60 PLN after the completed withdrawal; the remainder is below the confirmed minimum of a new request 80 PLN.
