Registering for Fireball Casino

Operator, license and geographic restrictions / License, legal entities and account security

Field	Value and scope
29-20 · Registration method	ACCESS-01: email and password, then a profile with phone and address; Google is a separate option of the original form, not used in the episode.
29-21 · Required registration fields	Email, password from 8 characters with the required symbols; full name, date of birth, address, phone and agreement to the terms in the profile under the contract.
29-22 · Optional registration fields	Subscription to news is optional; a promo code is not needed for automatic welcome.
29-23 · Phone confirmation during registration	In ACCESS-01 the phone is entered in the profile; a separate SMS at the first registration step is not used, SMS of withdrawal is described separately.
29-24 · Confirmation of email during registration	ACCESS-01: the email link was confirmed before the first financial operation.
29-25 · Documents during registration	Documents during registration in ACCESS-01 were not requested; KYC was completed before the first withdrawal.

Account, registration and verification

Saved information — the first step of the public English-language form 15 November 2026. The Fireball Casino Registration window offers Email, Password, Next and Sign up with Google. In the saved state, a hint about mandatory email and an offer 100% Welcome Bonus until €1 000 + 5 000 FS are shown. The configuration describes two steps, a basic form and residential address. The first step requires a valid email and a password from **8 characters**. Validation messages mention a digit and a lowercase Latin letter. The description of Read More for an international audience with a focus on India begins registration with a phone and a code via SMS. Both versions relate to their sources; the order for a specific country is determined by the scope of the specific profile.

Country and currency mapping in the registration configuration	Country codes
EUR	AD, AT, CY, DE, FI, GR, LU, ME, MC, MT, NL, PT, SI, SM, IE
PLN	PL
HUF	HU

Country and currency mapping in the registration configuration	Country codes
NOK	NO
RUB	RU
CAD	CA
ZAR	ZA
INR	IN
BRL	BR

The country/currency map contains 23 mappings. It includes MT, NL, PT, SI, IE and RU, mentioned among the excluded territories in §7.3. These are currency settings by country; the access area is described by the terms and actual verification.

- **Saved information — terms, FAQ and profile.** Registration is free and available to an individual only in their own name. FAQ describes Open Account and mobile number confirmation. The general terms require accurate full name, date of birth, place of residence, email, phone, a unique nickname and password, a checkmark accepting the terms, and a declaration that the player does not suffer and has not previously suffered from gambling addiction. Under FAQ, use of the site requires registration with acceptance of the terms, and for taken nicknames the system requires a different name. §5 assigns storage of registration information to Privacy Policy and prohibits buying someone else's account. Responsible Gaming Policy describes entering the date of birth, separate confirmation of 18+ and automatic blocking of ages below 18. Under the registration terms, one account is required, including the absence of an active self-exclusion. The account may not be sold or transferred. Data must be updated promptly and the casino notified. Offensive nicknames, names containing internet links, and names imitating special rights (for example Administrator) may cause a block until an approved nickname change.

Account, registration and verification / Verified access and verification chain

In ACCESS-01 I registered a profile via email and password, confirmed email, filled in personal data and phone. At the first step, no documents were requested. Before the first withdrawal I completed KYC-01: identity, address and ownership of the bank account, 79 minutes from sending the package to the result. An empty source EUR account with status Unverified relates to a different observation and does not cancel this procedure.
