Game catalog / Demo and return / Separate demo episodes of game cards

In each row I opened demo on AND-01 without a deposit, started with 10 000 conditional credits and completed 30 rounds at 2 credits. Turnover 60 credits, result =10 000−60+payouts; after restart the conditional balance is again 10 000. These credits are not PLN and do not participate in withdrawal or bonus turnover. Live-products are excluded from this table because they are not assigned demo-bets. DEMO-01 above is a separate series of 60 rounds.
