Bonuses, promotions and wagering rules / Polish welcome and load calculation

PL-BONUS-01 — a standalone alternative to the cash branch of No bonus. I made the first eligible card deposit of 50 PLN; welcome was activated automatically and gave 50 PLN bonus. This amount was confirmed during verification; the expert record about automatic issuance after the first minimum deposit is preserved with a link to the corresponding episode.

The rows are alternative calculations, not a plan of sequential deposits. The threshold of 20 PLN does not automatically create a payment route to 20 PLN. For card and MiFinity the effective minimum is 50 PLN; for Bitcoin 40 PLN upon qualification of the specific method. With a deposit of 5000 PLN cap leaves a bonus of 4000 PLN and an effective match 80%.

after 1000 PLN actual stakes: 2900 PLN of credit, that is, another 29 000 PLN stakes at the same weight. The maximum stake during wagering is 8 PLN; the cost of a purchased feature is included in this limit.
